Programa socioeducatiu de suport i recuperació emocional per als refugiats a Grècia

Informe de la Visita de Prospecció, juliol 2016

Refugiats caminant pel centre d'Atenes en busca d'allotjament (juliol 2016)

La darrera setmana de juliol de 2016, un equip de mSocial, format per Jordi Tolrà i Albert Martínez, ha realitzat una missió de prospecció a Grècia sobre la situació dels refugiats, per tal d'identificar les necessitats i mancances dels refugiats i en relació a un possible projecte de caràcter socioeducatiu, per facilitar el seu retorn a una vida activa, saludable i en cohesió amb la societat del país en el que es trobin.

Introducció

Grècia està experimentant un flux sense precedents de refugiats que fugen de la guerra a l'Orient Mitjà a la recerca d'una vida millor a la UE. Des de gener de 2015, més d'un milió de persones han fet camí a la UE, en el que s'ha convertit en la "ruta dels Balcans occidentals", creuant Turquia i Grècia. Durant el 2016 han arribat a aquest últim país més de 180.000 persones. Més de 3.000 persones han mort o desaparegut durant el viatge.

El tancament de les fronteres entre Macedònia i Grècia a principis de març de l'any 2016 ha provocat que més de 57.000 persones es quedin atrapades a Grècia. Uns 49.000 estan a la Península i 8.000 a les illes.
